## Super-small fluorine terminal

FX series （100pcs/pack）

- This is a super-small fluorine terminal that can be fixed to a PC board by soldering.
- The upper pin and the lower pin are electrically insulated.
- This is used for a part of operational amplifier with minute current and other parts whose performance is not fully achieved with a glass epoxy board.
- Material: Fluorine (milky white) (UL94V-0)
         : Brass
- Finish: Gold plating over nickel base
- Printed board fitting hole diameter: φ 0.8

Part No.: FX-1   Part No.: FX-2   Part No.: FX-3

■ Large type
- The material and finish are same as those described above.
- Printed board fitting hole diameter: φ 1.6

Part No.: FX-30
